Customer Reviews

I have one happy little boy (2) who loves this and it goes along with his little aquarium train cars.

My son LOVES sharks and Thomas and friends. I was so excited when I found this book, and right in time for his birthday too! My kindergartener reads parts of this book on his own too. I assistance most of the book. This is a great book for kids. This is a reading adventure for my 6 year old, it is all about my son's interest! I'm very satisfied with my purchase.

My four year old has quite a collection of the step into reading books, especially Thomas ones.. this is just another great book for beginner readers or in my case, I read to him. But with the pictures and the simplicity of it, he can memorize and "reread" it to you..

If your child likes Thomas, and likes stories, this book is for you. My son is 2 and loves to be read to.

I found that this book was an excellent choice b/c it's simple for him to follow, the illustrations are great and it's a quick read for bedtime or naptime. This is a must for any little fans of Thomas and Friends.

Have read 50+ times since getting 3 days ago. 17 mo old loves it. Many cameos by other trains.

If you have a Thomas the train fan they will love this book

We own the aquarium cars from Thomas and friends. It's nice to have a story fro the aquarium shark car to keep the imagination alive with these trains. The children thought it was funny.

Fun story can't go wrong with a good Thomas book.
