Teora is a children's books publisher.

5 yr. old Granddaughter was delighted with her book!! :)

Good

1000 Games For Smart Kids is an inexpensive, comprehensive, and very highly recommended 371-page compendium of puzzles, mazes, and clever challenges specifically designed to provide "pencil & paper" entertainment for children ages 4 to 10. The games do more than just keeping the

kids quiet for a few hours on a rainy day or a long car trip! As they turn the pages and work the games, they will exercise reading and writing skills, learn about new things, and enhance fine motor skills and experience intellectual stimulation as they color, link dot-to-dots, spot differences, count, observing, finding and linking pairs, add, subtract, and involve themselves in complex problem solving. 1000 Games For Smart Kids is ideal for "rainy day indoors" and extended car trips.

Mazes, counting puzzles, matching, spelling, creative thinking, there is literally something in here for everyone at all levels. From very simple mazes that are appropriate for a four year old through more complex multiplication and division problems more appropriate for the nine or ten year old child. There is something for everyone in the book and a wide variety of puzzles and games so children are sure to find some that they really like. 1000 Games for Smart Kids is highly recommended for hours of fun.

amazing games, excellent

I purchased this book for our 3 years old, and was glad to have bought this. There are a lot of different games in the book, which our son enjoys. I have to be involved since he cannot read just yet, but after a while, he knows just what to do on some of the games, even without my supervision. This is a cool book because there are enough games here that keep my son out of boredom.

Rebeccasreads highly recommends 1000 GAMES FOR SMART KIDS as both a gift for the children in your life ... & yourself! A truly "inter-active" game book for playing alone or in company, anything to get your kids away from the TV or PC & practise their eye-brain-hand coordination while trapped in a car, or waiting room, or a blizzard.

a worthless bok, that was put down in a matter of minutes
