My 9 year old granddaughter loves this book. When I visited last we sat down with it and went through the entire thing together. She is not one who reads a lot of books, but she loves this one because of the amazing facts. The National Geographic pictures are wonderful, too. Great for girls and boys and especially fun to read aloud and amaze friends and family.

This book will even get non-readers reading! My two boys love to read these books and tell everyone the interesting facts they found out. Great book - highly recommend!!!

2nd and 3rd graders absolutely have tons of fun learning with this line of books as well as encouraging social skills with classmates and grown ups!!!!

I still find books that my grandparents gave me over 1/2 century ago. My 7 year old granddaughter receives so many clothes and toys for birthdays and holidays that I really want to give her something special and different. She loves the book!!! She takes it with her all the time, and periodically pops up with facts she has learned. She is starting to read in 1st grade, and picks up more of the words every time. Her mind is challenged and it has been a great gift. Every day should be a learning experience, and this book creates a learning environment. I love it too. Fun to read and fun to share with her, and I am all about that. A definite keeper.

Our son asked for this book for Christmas after seeing a smaller version. It's super great for him,

who is a beginning reader. He reads it out loud to us and the facts are very interesting! He goes to school and tells his friends about the facts he reads. Very large book, but he has book marks where he saves his pages. It will last him for many years I'm sure!

Can't beat National Geographic for kids

my 11-year old son LOVES these books!

Encourages reading in young children
