Choral Error Detection: Exercises For Developing Musicianship

Synopsis

Choral Error Detection can be used for choral pedagogy and ear training as an example of integrated listening and score study. The text book develops audiation at the simplest level for new students of conducting by isolating single lines and improving "up and down the score listening skills. This book includes short choral examples from the Carl Fischer Choral Music, BriLee Music, and Theodore Presser Company repertoire representative of many voicings, textures, time periods, and levels of difficulty. The accompanying CD has a performance of each excerpt with mistakes intentionally included.

Customer Reviews

These materials have served as great practice for me as I try to hone my skills in the choral rehearsal process as well as a resource for putting my choir students to the test. Well organized and composed product!
