Book by Warren Miller

It is a very entertaining read. Warren is the guy you would want to sit down in a ski bar with over a couple of beers and just listen to his stories. Having watched a number of his movies while he was still narrating them, I read this book with his soothing voice in my mind. The best story tellers don't recall how great they are, or how brave or how big they went, but instead tell about what went wrong along the way. I gave this book 4 out of 5 stars because it does tend to jump from one place to the next a little sporadically and because it, well, ended just too soon. I wanted to hear more of Warren's and Ward's adventures.

Thank you for excellent delivery service. A wonderful and fun book to read. I was thrilled Vivienne.

Steep and deep with Warren Miller circa 1955, I fondly recall the days when he would personally narrate his films in real time and on stage." If you don't ski this year you'll just be one year older when you do." Best quote ever from Warren Miller

Great story teller

Not much about skiing, mostly a road trip book and a car-fixing book. I expected more skiing and less stuff about shooting rabbits from a car window.

Warren Miller is a hoot. Oh, for the good old days of skiing in 1947

It was an interesting perspective on the era. Warren definitely embellishes in his particular way and comes up with a short entertaining read.

One of the funniest books ever. First read it after going to one of his ski films in the mid 70's. Loaned my 1st copy out and never saw it again. Finally got another and I'm still laughing.
