The description for this booklet on should include what is written on the inside front of this book, "Learn to make a triple rainbow bracelet, triple beaded bracelet, a flower ring, a flower bracelet, and a beaded flower bracelet". Basically, all that is included in this book are the instructions for how to

make two bracelets (The Rainbow Loom Triple Single Bracelet and the Rainbow Loom Star Burst Bracelet) with methods for adding beads to each of these designs and instructions for 1 ring.

This book is limited in scope, which I could handle if the execution were better. Just a few bracelets described really well with clear pictures- that would have been fine. But this book has just a few bracelets with pictures that even I had to look at a few times to decipher. My daughter can't replicate these patterns on her own at all based on the book.

this is the third book I have ordered. I ordered the first two for my granddaughters for Christmas and was impressed with the pictures, easy to read instructions and the variety of bracelets to choose from.

Get in on one of the newest and most fun craze.....rubber band bracelets. This book is full of cool bracelets to make and share with your friends. Clear and easy to follow instructions make it a breeze

Lots of fun for grandchildren .

Bought this for my granddaughters and their parents to share. I am already sporting a beautiful black and white one the 7 year old granddaughter made for her Nana. They love it!

It has some nice ideas. However, some of the bracelets you have to actually see being made so we had to go to you tube. I wouldn't suggest it for that reason

Great fun
