Books for Kids: There's a Spider in my Shoes (Children's Book, Picture Books, Preschool Books, Baby Books, Kids Books, Ages 3-5): Children's Picture Book by Michael YuVery colorful children's book about a boy who does not like some things. Each page has a color photo that goes along with what he is saying.Worse are the spiders and he finds them in his shoe. he has a

solution to the problem, with help from others.

I found this to be quite an unusual story and boy as well with great images, too for these reasons I wish to recommend and rate this for five stars, also for kids ages 2-9 & or in grades P-2. I received this for free using KU , in return, here is my honest review. Super work Michael & family! By Angela

But the beginning is completely frivolous to the plot and topic. Quite indeed. I would recommend it to an older child and ask what would make the story less negative.

My grandson, who will be in the first grade, liked reading this book. He thought it was funny.

I wasn't sure how much I'd like reading to him from my iPad, but it worked out great - and the story was wonderful. We enjoyed the rhyming and the illustrations really captured his eyes. I would recommend this to any parent and encourage them to keep it on their electronic devices to share with kids instead of "apps" for kids. Thank you!

My child does not like reading. She selected this book because it sounded amusing to her and it got her to read. And it was amusing. For that I give it four stars. I cannot give it five as the lack of proper grammar (though meant to be a child's voice) does not help teach a child. There was a couple spots I stopped my child and asked "Now how would you fix that sentence?"

I don't much care for children's eBooks.. but needed a book quickly, and it worked out well. My children and the three I was babysitting at the time loved it so much I had to read it to them three times. It has since become one of my children's favorite bedtime stories...

My oldest was turned off at first for all the negative sentences, but soon, she was laughing as we read about spiders and their tickle habit. It was a hit.
