Excellent beginner books for the violin or viola player in their first or second year. Larry Newman has an entire series of music books for violin, viola and cello that are all excellent for players in their first few years. I would not consider these lesson books, but books to supplement beginner players to learn more popular songs. For my young boys, I have the Don't Fret colored finger guide on their 1/4 and 1/2 violins. Then to help them find the correct notes, I will sometimes use a blue, yellow, pink and green or orange highlighter to color the notes on sheet music. I know it's a learning crutch, but it makes finding and playing the correct note faster and easier....the more positive feedback they get in playing a correct note, the longer they stay with learning music and different musical instruments (I hope). I also like the books because the songs are also easy enough for the beginner player to start memorizing songs too. Between the cello, violin and viola, I think we own all of them.

beginner adult on violin and this is so easy and so much fun to play

Nice, but the chords over the notes are confusing for students. Needs separate pull-out piano or violin part.

Easy classical themes for the beginner seems to be just the right combination for me to grow into. There is a lot there for me too work on.

This is a wonderful book. I play a mandolin, not a violin but I have had such fun playing the songs. Notes are easy to read. No page turning in the middle of a piece. Very familiar themes. I hope that this book will be written for viola soon as my future goals are to learn to play the mandola, tuned a fifth lower than the violin.

Very good
