"This reminds us that friendship is universal and crosses continents, generations and all other barriers." — Machine Knitting Monthly

Veronique Follet is a book publisher, a writer, and a member of the Thousand and One Company, which offers a diverse range of activities, such as face painting, for parties.

This is definitely a great step-up from beginner bracelet books like the Klutz books. I always made friendship bracelets as a girl and randomly decided I wanted to make some more now as an adult and ordered this book hoping it would be what I need. Turns out, it is EXACTLY what I wanted. The first couple bracelets are simpler and a very nice refresher course (though it may seem overwhelming to someone who has never made these bracelets before). After that, the bracelets become more intricate and more beautiful. Most of them do not look like something someone would assume a little kid made. Only reason I didn't give it four stars is that I wish it had more designs. But it does have a lot as well as easy instructions and great illustrations and pictures. Wonderful book for an intermediate bracelet-maker.

This book is definitely not intended for beginners although there are some simpler designs. Most of the designs are challenging but very fun to learn. I do wish there were more designs.

Great item. This book had perfect instructions - it was easy to copy, my brother and friends loved doing it.

This book is okay in that the patterns are very easy to follow and I have only found one pattern with a mistake. The only problem with the bracelets is that most of the bracelets in this book are simply not attractive at all. I have tried different colors thinking the bracelets would be prettier made up--they're not. The author suggests using #5 pearl cotton to make the bracelets, and maybe they would be prettier using that. However, I can only get very large skeins of that product for a very big price. I don't want to make 4,000 bracelets with the same few colors that I could afford.

Fun time.
