This book is ever thing that I expected.

Very useful for learning the basics of improvising and following a tune, as well as technique and reading. Advanced players will find good tips for emulating the masters.

Sisto does a wonderful job for any student of music and the vibes. Purchase this book and you will learn how to play great music with your vibes!DZ

i'm studying a bachelor on jazz vibraphone. this is a really crappy book. don't buy it.there is only one solo transcription of each guy, two the most. you are not gonna get the essence of the master out of this book, you are just gonna waste your money as i did.if you wanna use the cd for playing along is

better for you to buy whatever aebersold book HORRIBLE BOOK
