Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

Many, if not most, of the popular songs of the '50's are included in this book. The price is relatively low, making this a good value. Because songs are in "C" and most songs have simple chord progressions, I can easily transpose them on the keyboard (in my head on the fly) to keys that are more singable for my vocal range. CONS: 1) Chords are often too simple, excluding borrowed,

augmented, and diminished chords that would make the songs richer; 2) as with all Kindle Fake Books, the print is too small and has very limited ways of making it larger (unlike Kindle reading books). Bottom line, it's a great alternative to spending \$3-5/song from other internet sheet music retailers.

Great book -- thanks

The selection of songs is good for the 50's. My mistake was to not notice it was an easy book. Easy in this case also means that the notes are all "super sized". That was my mistake, but I do like the music.

Book delivers exactly what it advertises. Good selection of songs. Since all songs are converted to key of C, some may not be in the same key as the original recording.

Actually better than sheet music to play from since it lies flat, provides its own light source and songs are quicker to locate.

I enjoy using the book. The songs are easy enough for me to play without practicing.

great collection

Great book! Lots of familiar music. Arrived on time.
