# Straight Talk: Drugs And Alcohol (TIME FOR KIDS® Nonfiction Readers)

## Synopsis

Readers are given helpful information about the dangers of drugs and alcohol, including narcotics, hallucinogens, and prescription medications in this nonfiction book. Through detailed images, diagrams, informational text, an index, a glossary of terms, and a list of websites that provide additional information, readers are given the tools and information they need to educate themselves about addiction, drug abuse, the health and social issues that drugs and alcohol can cause, and how to say no to peer pressure. About Shell Education Rachelle Cracchiolo started the company with a friend and fellow teacher. Both were eager to share their ideas and passion for education with other classroom leaders. What began as a hobby, selling lesson plans to local stores, became a part-time job after a full day of teaching, and eventually blossomed into Teacher Created Materials. The story continued in 2004 with the launch of Shell Education and the introduction of professional resources and classroom application books designed to support Teacher Created Materials curriculum resources. Today, Teacher Created Materials and Shell Education are two of the most recognized names in educational publishing around the world.

## Book Information

Lexile Measure: 730L (What's this?)

Grade Level: 4 - 7

## Customer Reviews

Gr 3-5-Covering a wide range of high-interest topics in science, history, sports, vocations, and

avocations, these small volumes offer tight, busy-looking mixes of color photos, present-tense overview narratives, boxed facts, and captions, supplemented by various combinations of charts, tables, interviews, open-ended questions, and, where applicable, recipes. Each volume is capped by a current, annotated set of multimedia resources. The biographies present highly idealized, inspirational portraits of their subjects. Aside from Healthy, (in which the old food pyramid is replaced with the newer MyPlate recommendations), the Straight Talk titles are not quite "straight." Both Drugs and Smoking fail to deliver enough information for readers to come to their own conclusions about the topics. More balanced alternatives to the entries in both subseries are available elsewhere. Otherwise these titles are acceptable choices for both assignment use and casual browsing. (c) Copyright 2011. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc. No redistribution permitted.

With a great emphasis on nonfiction in the Common Core Standards, these leveled nonfiction readers entertain while filling a curricular need. Conversational text and absorbing layouts with plenty of sidebars, questions to consider, facts, graphics and color photos will entice even the most reluctant of readers. A Wide-ranging and appealing series. --Booklist 2012

This is a great book for a mature child. A parent should be with the child, DURING THE ENTIRE READING OF THE BOOK, to further explain some concepts in the book. My nine year old is very intelligent. She had many questions when we read this book TOGETHER. I would not recommend this book if there was NOT a MATURE adult present to help in further explanation of the content of the book.
