Customer Reviews

An excellent tab book of Tom Petty's work. I like the lead tab, while my wife prefers the chords. (we both play, and this was a gift for her). She would have preferred to see the actual chord diagrams on the sheet music instead of the written chords; ie. Am, C, D, G, Em, etc. She seems to identify more quickly with the chord diagrams rather than the chord letter, but she does know her chords so can adapt.

Great!

has the tabs, seems like I should be able to start playing some of the 14 songs within no time at all. arranged nicely for someone with very limited experience, and trust me, i was very pleased that the tabs and songs were done so even I could understand what I was supposed to be doing. I can't wait to give some of the easier of the easy a try....love Tom Petty and excited to have this book!!! :)

Well, I am disappointed. This book and CD do not come up to the level of other Hal Leonard books, like playing the Blues, Seems too simple and certainly not like the stuff you hear on the albums.
