# The High Blood Pressure Hoax

## **Synopsis**

Blood pressure drugs guarantee you will get worse, for they actually deplete the nutrients that cause high blood pressure, making sure you will need even more medications. They also shrink the brain and raise your risk of heart attack, senility and blindness. High blood pressure is not a deficiency of blood pressure-lowering drugs. But there are dozens of ways you can permanently cure your high blood pressure without drugs. And since healthy blood vessels determine the longevity of every organ in the entire body, you need this book even if you don't have high blood pressure, for vascular health is key to total body health and longevity. First of all every single cell of your body depends on the health of your blood vessels that supply them. If you don't want to get Alzheimer's, then you need a healthy brain, but it is only as healthy as its blood supply. Likewise, if you don't want cancer (or you are trying to heal it), it starts (and spreads) in areas of poor circulation. The High Blood Pressure Hoax will show you that for every ailment even one as simple as high blood pressure, there are multiple causes and multiple cures. You have a lot to choose from. In fact, I would suggest you read the entire book before you chose your program. For by understanding how the various causes work, you (who know your body and medical history better than anyone else) have the optimum opportunity for choosing the best solution for you. This is the ultimate plan for vascular health, but it doesn't stop there. It also continues on from where Detoxify or Die left off and takes you to more powerful levels of detoxification. I can't wait to empower you! So let's get started.

## **Book Information**

Paperback: 280 pages

Publisher: Prestige Pubs; 1 edition (February 2008)

Language: English

ISBN-10: 1887202056

ISBN-13: 978-1887202053

Product Dimensions: 0.8 x 6 x 8.8 inches

Shipping Weight: 1 pounds

Average Customer Review: 4.5 out of 5 stars 92 customer reviews

Great book! Is a must read for those who have been told the only way to reduce high blood pressure readings is by taking prescription medications that may cause other health issues. Is a book for those who want to take charge of their health and well being. Highly recommended!

Dr Sherry Rogers is awesome. You will learn a LOT in reading this book....that you will find nowhere else.

Great and well documented.

This book is goodÃ¢Â“Ã¢Â“has many insights into getting off dangerous high blood pressure meds.

If you have high blood pressure, this is a must read.

great read

Thank you for Dr Sherry A Rogers! Her way of writing is the best I've ever seen. She documents the many sources of each subject and details. She makes looking up items in the book easy with an excellent index. Her books are like the best references you can find for getting to the real causes of many physical and mental illnesses. Her books cover more than is in the name on the book. I have suffered from being prescribed harmful drugs that don't cure anything and do permanent damage to my body. Let Dr Sherry A Rogers educate you and your family to have a better understanding of your health! Read all of her books!!

Very good and honest information
