Customer Reviews

This is a great product if you know very few Japanese words and phrases or no Japanese at all. It teaches many different useful phrases, but even after learning all of the discs you still won't be able to have a full conversation in Japanese. You will be able to add some input in conversations though. After learning this, I feel the vocabulary used was very helpful. It teaches many words and if I heard conversations in Japanese I could pick out words I know and understand what people are saying. It has audio English translations for most of the lessons, and there are Adobe reader files for all of the lessons. I really liked learning with this and I think it is a very great product for the price.
