fantastic! informatic

good book

Decent book if you are looking for terms and descriptions and sketch photos. Overall , I am not terribly impressed with this book.

This a Christmas gift can't Rate it yet

Maybe this is not the book for the serious ballet student - they ought to know all this already - and shame if they do not. But for the ballet fan, the regular theater goer, who is curious - what is this fantastic leap called... and those weird turns. Here are the explanations and handsome drawings, a truly enjoyable volume.
