Customer Reviews

So, I bought this because I will NEVER be even close to playing as Oscar, BUT now I can pretend. I read music well and enjoy these easy to more advance exercises, plus. I'm going to keep it, but not sure I needed to buy it for myself to become a better pianist. Intermediate to entering Advance piano levels will enjoy this book and learn a bit of Oscar's inside music improv.

Very helpful learning tool better than expected these exercises etc are in key of C F G B flat and E flat

I've had this for a few weeks now, and am really enjoying working through the exercises. Does anyone know of a good audio recording of the peices in the book?

An excellent collection of exercises, minuets and pieces. Great for sight reading and playing. I strongly recommend tracking down videos of good players on YouTube, it will help a lot. Oscar Peterson was truly one of a kind.

The exercises start out simply and progresse to more difficult exercises. I would recommend this book to any person trying to become acquainted with the marvelous way that Oscar Peterson played Jazz.

It suits for any level.

looks easy, but when you work through the exercises, they require a lot of attention. Very Good Study Book!

Great method
