Customer Reviews

Joan Holub has authored and/or illustrated more than 130 children's books. With Suzanne Williams she is the author of the popular Goddess Girls, Heroes in Training, and Grimmtastic Girls series. She lives in Raleigh, N.C. and can be found at www.joanholub.com.

good book. bought for my 4 year old. she likes it too. abc are taught on each page with a couple of words with each letter. a few pages in back are for useful signs like please and thank you. a few signs are unclear to me as to the exact way to do them because the hands just have wiggley lines instead of arrows like most of them. overall good beginner book for young child.

This has been great. There are not too many picture or words for my son to lose attention, but enough that he gets that there are words with letters/signs. Also, they are age appropriate. The letters don't include words that would never be used by a modern kid like some books do. I also love the helpful signs at the back of the book for every day use.

Lots of fun learning to sign with my granddaughter and my preschool class. It is wonderful how little ones will pick up on signing very fast, and signing with the very young help the frustration level, for them and their caregivers. Especially when they are trying to express their needs and of course wants:) Just think.. I bet every parent knows the sign when their child's ear hurts. That was a true help for me, with my first child who had constance earaches and would cry while tugging on his ear.

Requested by my daughter for her daughter. She has been teaching my granddaughter sign language, and this book has been so helpful.

love this book

A+++

My little one took this out of the library so often I bought it. Great introduction to sign language for young ones.

He love it
