## Customer Reviews

Interesting stories some fact's I had never heard of. Fun read

Great collection of person's experiences before, during and after Gettysburg. Great insight from many different sides. Perspectives from many diverse personalities.

The casualties at Gettysburg affected thousands of soldiers from the North and the South, but many more people's lives were affected as well as this film tells their stories.

Even I, NOT a Civil War buff by any stretch of the imagination, loved reading the stories about all the people profiled here, but particularly about the everyday citizenry (non-military) who stepped into the middle of this battle - for any number of different reasons - even though many of them didn't have to; they just wanted to be of help. I was also glad to see the many women being portrayed in these pages for their noble and substantive contributions. I enjoyed the book and will recommend it to my friends.

This is a great book for anyone interested in the Civil War not just Gettysburg. I could not wait to turn the page.

Very boring. Not a story, more of just a reference. Someone did some great research, it is just not a story or something you would sit down and read.

Thank you, good product.

A lot of different little bits of information of seldom told people at Gettysberg both military and civilian
