Healing Lupus Naturally: Science-Based Natural Lupus Remedies Your Doctor Doesn't Want You To Know About

Synopsis

Do you suffer from Lupus or a similar autoimmune disorder with symptoms your doctor just can't figure out? Lupus is just one of many "new" autoimmune disorders that used to be incredibly rare and are now much more common. Clearly, there's something going on when so many of these autoimmune diseases that most doctors would never see in a lifetime of practice are now commonplace. In *Healing Lupus Naturally*, Stephen Tvedten discusses current research into Lupus and similar mysterious diseases for which Western medicine has no cure or effective treatment. You'll discover how environmental factors play a role in Lupus and other autoimmune diseases and chronic diseases, and how to reduce your environmental exposure to toxins which can harm you and your loved ones. In this book, you will discover:

- * Proven natural therapies which can help your immune system balance and heal itself naturally, with zero or minimal side effects
- * How to detoxify your body naturally from harmful environmental pollutants which can cause your immune system to go haywire
- * How to properly research and understand many of the drugs being used to "treat" Lupus and why you should avoid their horrible side effects
- * The link between body pH levels, chronic diseases and "unexplained symptoms"
- * And much more!
