## Synopsis

Discover The Beauty of Music Theory and Become a Better Musician Through The Power of Understanding! Have you ever wanted: To unlock the mysteries of notes, intervals, music scales, modes, keys, chords and chord progressions and other important concepts in music? To understand where do chords and scales come from, what are all the different types that exist and how they're built? To master your rhythm and time skills and understand how to practice and play easily in any time signature? To know what's behind all the beautiful music and learn how you can (re)create it? But... Have you ever been put off by music theory or thought that is too hard to learn? If you find yourself in any of this, then this book is the answer you're looking for. It covers everything that anyone who plays (or wants to play) music, and wishes to become better as a musician, should know. This is the most comprehensive book on music theory that you can find today. Not only that, but this book is written in a way that is really easy to follow, understand and internalize all the concepts explained. It doesn't matter what instrument you play (because music theory is universal) nor your playing ability! You don't have to be a college degree music student in order to understand and use this, anyone can do it! This book will give you all the information necessary to become an expert in music theory without frustration and feeling overwhelmed, and this in-turn will have innumerable benefits to your playing! Don't believe me? Just use the look inside feature to get a sneak peak of what you'll learn inside... Get this book now and solve all your problems with music theory! ## Customer Reviews

Hi there, Nicolas here. I'm all about continuous life-improvement and discovering your true-self so that we can find and attract beauty into our lives, be the best we can be, and enjoy life as much as possible! Playing music and guitar, or any other instrument, is a big part of that. It's really one of the best ways to express yourself and feel more confident in life! I'm a guitar geek by nature with a passion for learning and playing. From all the experience I gained throughout many years of doing this I know what works and where I can provide the most value, from my unique perspective. I'm very glad and grateful to have the opportunity to share what I've learned along the way and help you develop this wonderful skill of playing guitar. I really wish to provide my readers with great value and for my books to be a source of inspiration to you. I'm sure that you will enjoy them and find lots of benefits!

This little text packs a lot of information into several short explanations that can be easily understood by anyone with an interest in music. It is a great introduction to music theory and would be useful for raw beginners, as well as a concise summary for those with more advanced understanding.

I enjoyed the style the book was written in and the author's ability to break it down .I would recommend this book

Clearly written and adds to my understanding of how of music theory.

A thorough and understandable treatment.

Great and easy to understand.

The book started falling apart the 1st week smdh not buying for the seller again

I am a moderately developed beginner and I found this book perfect. It explained the concepts clearly and built concept upon concept, easy to read and understand! Don't be afraid if you can count and know a b c d e f g of the alphabet you can learn this!
