Customer Reviews

There is really nothing that needs be added to the title. If you are a flutist, buy it and learn it. Its a seminal work of contemporary flute repertoire written in 1936 (revised 1946) for flute alone written for the inauguration of Georges Barrere's platinum Powell. Still sounds new today. Adhere religiously to the composer's metronome markings and dynamics. This is not a work to "interpret freely" in the romantic manner. I have played Density 21.5 for many years and purchased again because my old copy was lost. If you're a flutist you'll love the piece. Once you've figured out Density 21.5 go on with other flute unaccompanied works: Luciano Berio Sequenza No. 1, Mario Davidovsky Synchronisms 2 (flute and tape), Andre Jolivet Cinq Incantations, Elliott Carter Scrivo in Vento, Donald Martino Quodlibets II, Milton Babbitt None But the Lonely Flute, Shalomit Ran East Wind, and multiple works by Harvey Sollberger, Robert Dick, Katja Saariaho, Ian Clarke and Jennifer Higdon, (there's much more but this is a good start.) You'll discover a whole new wonderful world of flute playing. offers a good price for Density 21.5 and fast delivery too.
