My 3 year old daughter was immediately interested and engaged with a friend's maze book, so I ordered this one for her. I followed the suggestion of a previous reviewer, and laminated several pages to begin with. I put them in a 3 ring binder and presented them to my daughter with a set of dry erase crayons. What a hit! She enjoys working on her mazes daily and I just take a few minutes each evening to wipe down the pages so they will be ready for her the next day. I felt the book was well set up in terms of building skill level as my daughter is breezing through the more challenging mazes at the end of the book now so I plan to purchase the next maze book in the Kumon series soon.

My 4 year old couldn't get enough of this book. Got this for his bday since he wasn't holding a pencil well and wasn't very interested in writing or coloring. This book was wonderful. It helped him learn to hold his pencil and he was so excited to do a few pages after daycare each night. Definitely got him interested in writing which is what I was hoping for.

The Kumon My Book of Easy Mazes is a great next step after the Kumon tracing workbooks. This workbook features very easy mazes that are perfect for a two or three year old. A four year old would most likely find these too easy and could be bored. This workbook could easily be finished within a month by spending at most 10 minutes per day. Ages: The two to four years old age range is appropriate for this workbook. Multiple Children: A workbook is needed for each child.

We bought this for our 4 year old son who is just learning to color inside the lines. He's very active and this holds his attention well. We use it with Crayola Slick Stix and he loves showing us how much he can do. The mazes are very simple and fun and don't overwhelm him with a lot of thinking skills either.

My daughter loves these books!! I pull out the pages and laminate them and use erase markers so she can use them over and over, we use them in the car, the morning, quiet time and so much more.

I originally bought for my just turned 5 yr old nephew. This book was way too easy for him and his

age. At the time of ordering it I read Kumon's description but did not read reviews, that's where I made my mistake. I kept the maze book for my 2 yr old niece when she turns 3 and ordered as high up in the series as I could go for my nephew. He does love the new book, but so far, still not that difficult for him. I'm hoping the mazes become more difficult the further he goes into the book.

Ordered for a 2 yr almost 3 yr old. She enjoys doing "school work" like her big sisters. Sometimes she would rather color the mazes than go through them. Nice book overall.

My 3 year old son has not ever been very interested in coloring/drawing/writing. He is interested in learning his letters, but has no pencil skills because that has never been of interest to him. I bought this book, as well as this tracing book from Kumon:

http://www..com/gp/product/4774307076/ref=oh_details_o06_s00_i00?ie=UTF8&psc=1. We started with the tracing book and he did enjoy it enough that he would do a few pages at a time. One day he said he wanted to try this book, and he took a liking to it and finished the entire book (80 mazes total) over a span of 2 days. His pencil skills have improved because these mazes interested him enough to keep him working at them. The mazes are great for spatial awareness and problem solving. My 3 year old loved them! I loved that there was a certificate in the back for when you complete the book. He was so excited to put it up on the fridge. If you have a pre-schooler who needs pencil practice, this product is great. If you want to help your child build their brain with these fun mazes, this product is great!
