Customer Reviews

Nice short classic songs. Level is for a little over beginners. My son has been playing for less than a year and he has finished the book already. It has duets to play along with the teacher, which is good.

Good arrangements, but these books are meant to go along with actual lessons so just be aware of that.

Stupid blah blah blabla. dont waste your money we got the wrong book and the songs are horrible

Love this book so much! Very easy to follow along and is helping me develop my piano skill very well!

I started learning piano seven months ago. It has been a delight to play these classical tunes. They are nicely put together and not that difficult to learn. Each one might take a week or so to learn to play well with some instruction. Others are easy to learn without any instruction. I highly recommend this book.

Great accompaniment to the Piano Adventure series. My student's love playing these songs.

great price

Nice collection of pieces that are at the 2a level.
