good

the music it self is great full of challenges but fullfilling when accomplished... with accompaniment the only problem is it is difficult to find the song number on the page or cd but it can be worked thru and very helpful for students...

Like a prior reviewer, I have no idea why the title of this includes "published in 3 parts" as my book is complete for the clarinet parts. So, don't let that throw you. I think they mean that you can buy one book with the clarinet parts only (this book) or another book with the piano parts only, or a third version that comes with a CD.

This is a must have for anyone that is serious about the clarinet, especially if you are an advanced player in High School. The pieces are difficult, but they are fun to work on and master. This book comes with the accompaniment CD, I suggest ordering the book that comes with the CD. The piano music has to be purchased separately.

I realized after checking in store that this normally comes with a CD for essentially the same price. No CD in what I received...

These are not a collection of the top concert pieces for intermediate to advanced players. But they are good and worth the penny. The value is secured by the quality of the CD recording of the performace and accompaniments.

Great product, excellent etudes, and very good seller. Highly recommended both book and seller.

Great book of standards.
