With over 2 million audio programs in print, Kelly Howell is highly acclaimed for her pioneering work in healing and mind expansion. She's been actively involved in personal development and consciousness research for more than two decades and is recognized as a thought-leader in the field of personal transformation. In the early 1980's, Kelly began her research into the mind and its potential as part of her own personal exploration. She began making personalized reprogramming tapes in her living room, and was astounded by the results. Seeing powerful changes in her life and her clients' lives, led to years of research and production. In 1990 she formed Brain Sync offering a wide range of CDs and mp3 downloads for meditation, healing, spiritual growth and mind expansion. Over the years, Kelly has worked in cooperation with eminent scientists, medical

professionals, brain researchers and spiritual teachers to develop her groundbreaking transformational audio techniques. Her clinically proven Brain Wave Therapy CD's are embraced by both individual users and by medical professionals. In 2005 Kelly launched Theatre of the Mind podcasts as an experiment. She says, I started Theatre of the Mind with the idea that the more we understand the inextricable connection between thought and reality, the more power we have to transform ourselves, our lives and the world. My intention is to make it easier to deepen our understanding of Mind, and apply this knowledge to create real results." Theatre of the Mind podcasts offer unprecedented access to some of the world's leading visionaries and consciousness researchers exploring mind expansion intuition, creativity and the many facets of human potential. Today, Theatre of the Mind consistently ranks in the iTunes Top 10 most downloaded Self-help, Health, and Alternative Medicine podcasts producing over 100,000 downloads per month.

I first thought, if anything, at least it will help me relax...I think this was the best meditation I have experienced. I love her voice. And what you are asked to picture in your mind is wonderful. It's a really good experience, and I find myself smiling, and even crying some with joy during it...and the thing is...it works...it really works...This does help you attract wealth...could not tell you how...but two weeks after listening to it, I was called by one of my finance companies...they were calling ...just to see how the loan was going...strange...then, they helped me consolidate my bills...so I paid off everything...which boosted my credit...and they gave me money on top of that...as well as having a much lower payment a month for the total of the consolidation loan...and it will be paid off within 2 years...at a very good interest rate...then, I was able to get a new credit card with a 6000 dollar limit, and a low interest rate...this is coming in handy, as I have home repairs to be done...this has really changed my life for the better...and it just gets better daily...Have faith, and enjoy!!

This has helped me immeasurably in a very short time. I highly recommend it. My only concern is that Ms. Howell's voice is very low in all 3 of my Brain Sync CD's and in order to understand much of what she says I have to turn the treble way up which makes the music tinny sounding. On Brain Sync's website is a place to address questions, and I asked if it's necessary to hear everything she's saying, but I've had no response, as another person also noted. I'd like to listen on my portable CD player but the base isn't adjustable and her words are blurred, so I have to connect with my table radio/CD player. So unless someone from Brain Sync is courteous enough to tell me otherwise, I'm stuck listening in one spot, with high pitched music.

It's just wonderful; that voice is the best of the best~ and it takes a while to see results but I can honestly tell you that I am now debt free. Also; I have found money on the ground twice since I started listening to this CD--both times I found 20 bills. Nice! Like money is finding me...very unusual indeed. I love this and will continue to grow my library of Kelly Howell hypnosis CD's! Try it; you will love it.

Again, Kelly Howell is an excellent hypnotherapist. I, too, am a certified hypnotherapist and have been hypnotized by the best, including Dick Sutphen. Kelly does a great job and her voice is soft and pleasant to listen to. I frequently listen to the nonverbal session during the day; however, the verbal hypnosis session is great, and I would recommend this disc to everyone interested in turning around the fortunes.

puts me to sleep but still not rich! lol

I have had worked with this video for a couple of years and I love it. It does work. The mind is very powerful,

This is my favorite guided mediation.

WHILE I HAVE NOT COME INTO MILLIONS OF DOLLARS SINCE STARTING TO LISTEN TO THIS, I AM MORE CONFIDENT, LESS STRESSED, AND MORE DECISIVE. SOMETIMES I WILL MEDITATE TO IT AND OTHER TIMES I WILL PUT IT ON REPEAT ON MY MP3 PLAYER AND LISTEN TO IT IN MY SLEEP.
