Rick Carlton is Director and Associate Professor of Radiologic and Imaging Sciences at Grand Valley State University in Grand Rapids, Michigan. A past president of A.E.I.R.S., he also founded Lambda Nu, the national honor society for radiologic and imaging sciences, and has taught for more than thirty years. Author of twenty books, Rick also founded two professional journals, has been a J.R.C.E.R.T. site visitor for thirty years, and has given presentations around the world. He earned an M.S. from National Louis University, a B.S. from The Chicago Medical School, and an A.A.S. from Illinois Central College. He is A.R.R.T. certified in C.V. and radiography. Arlene Adler has been Professor and Director of the Radiologic Sciences Programs at Indiana University Northwest for more than three decades. A member of the American Society of Radiologic Technologists, and Fellow of the Association of Educators in Radiologic Sciences (A.E.I.R.S.), Ms. Adler has also authored several articles and textbooks on the radiologic sciences. She earned her B.S. in Radiologic Sciences from the University of Health Sciences/Chicago Medical School and an M.S. in

Education from the University of Illinois.

I did purchase it used and expected some wear and tear which I didn't mind, but it was missing several pages. Not just one or two here and there, chunks of pages were gone as well.

This is obviously a needed book for the Rad Tech program. It was easy to use for the most part. But some of the material does not go well with the text book. And the diagrams tend to be difficult to label.

Came super fast, and just what was needed.

OK dry material

Many pages, about 20 were missing from the book, pages i needed for the course.

I was expecting more questions I could look up in the book. This workbook is mostly labs.

Was written in.

Great book
