I would recommend that you high light all the answers, no use memorizing or reading stuff that is wrong. I read it all and picked out the words and flunked my first test, never again. Only read the write answers. Only thing is people like taking the tests and seeing what they do on it, not me! I have a hard time studying and remembering as it is, so I will highlight all the answers. Good book thro.

Very helpful for what i was studying for. !!!

Very informative and a good refresher.

This book covers all basis of the testing process and sample questions offer a valuable review. Well worth the money.

Good book

Good book I like it and Awesome I wish it lasted longer If it is a good series Good storyline
