Customer Reviews

This is one of my favorite Trixie Belden mysteries. Trixie and Honey get to go on a trailer trip (with Miss Trask as chaperone), as they search for Jim. Meanwhile, they solve a couple more mysteries that crop up along the way (which are tied up with a red trailer that went missing), and they meet some fun characters along the way. This is an old series, but is known as a character builder. It's interesting to see the list of prominent women who read these in their youth. Trixie is so much more accessible and "human" than Nancy Drew. She fights with her brothers (but loves them anyhow). She has great times with her best friend. If you're buying these for a young girl, you may have trouble getting her to take a look at the series, unless she's just a voracious reader. The trailer trip

(including the daily adventures in meal preparation) is dated now ~ the descriptions have a fun "retro" feel, though. The atmosphere (socially, culturally) is kind of 60s/70s, with some characteristics and language hearkening back to the late 50s. When I was young, I read everything: even Nancy Drew and the Bobsey Twins, both of which were terribly dated, even in the 70s. Trixie was more up to date for me, but pre-teens of today may prefer their own culture.

I read this book when I was 12 and I loved Trixie and her friends. Several years ago I bought the books here on for my granddaughters and they enjoyed them as well. Now I wish to reread the series on my kindle and I'm enjoying them just as much as I did 50 years ago. I've purchased the first three but now I find that the 4th. Book , "The Mysterious Visitor" is only offered in audible format. I'm so dissappointed, I want to read them in order. I hope that Kindle will bring it back . Till then I'll have to wait to read the rest.

I grew up with this series of books and so did my daughter. Now I have for my granddaughter and she loves!

Granddaughter, who is 8, loves this series, just like I did as a child.

I loved Trixie Belden when I was a child, and reading the books again now brings back wonderful memories. I'm happy to see them on my Kindle, I hope the entire series gets published for Kindle!

Except for name written in book. Thank you.

I always enjoy the Trixie Belden books. I have all of them.

Second in the excellent Trixie Belden series, this story tells the tale of Trixie and Honey's search for Jim Frayne, who disappeared at the end of the series' opener, The Secret of the Mansion. The story, written by Julie Campbell who created the series (and wrote #1-6) is excellent, the characters are memorable, the story is tight, replete with great and humerus moments as well as tension and suspense. The cover artwork is not original, but it compares reasonably well, although the artist elected to depict the trailer the girls travelled in (the Wheeler's Silver Swan) instead of the Red Trailer of the title. The original artwork depicted Trixie and Honey playing with a dog in the foreground, with the red trailer in the background.
