The perfect arrangements for the intermediate organist, or, as in my case, an organ lover who has not played in many years. Now in retirement I have the time to return to the organ, and these arrangements will definitely help me rewrite those neural pathways in my brain.

I haven't touched an organ keyboard in almost 40 years. This was a delight to find a good easy re-introduction to the music and the instrument.

I love the pieces in this book. They're generally easy to learn, and there are plenty of pieces for all a variety of occasions.

good

Perfect to just grab and play

This collection is pianistic in approach. I have not used it that much as organist in a Lutheran church.
