accurate tabs, ive learned most of them by now

The best selection of Green Day songs in one book, note by note guitar tab, easy to play for all guitar player level, instead of buy six different books of green day, this is the only one you need to play the best of the best. The tablature explanation is a good guide to understand the songs for the beginners.

This book is awesome! I love Green Day a lot, and was extremely pleased have many of their tabs in my hand. I am confident of the accuracy on most of the songs, and I love how much easier it is to

learn Green Day songs now. If you love Green Day, and have a guitar, I would definitely recommend. =)

The perfect gift to me, I hope I can learn faster all the song that I like from this book

Gotta like a Green Day guitar tab book.

nice

I do not read music yet but the tab for many of the songs is just plain wrong.

Pretty good. Some tabs are a bit hard to read but overall a great tab book for beginners. Enjoy the great book I highly recommend it.
