# What Is God's Design For My Body (The Miracle Of Creation Series)

## Synopsis

The Miracle of Creation Series is a sensitive, biblical, and user-friendly tool for parents to use as they introduce their children to God's plan for sexuality and reproduction. These picture books *Why Do Plants Grow?* and *Why Do Birds Build Nests?* teach younger kids about nature's amazing reproductive processes and gently prepare them for a later discussion of human sexuality in *What Is God's Design for My Body?*

## Book Information

## Customer Reviews

SUSAN HORNER is a homeschool mom and freelance writer. She is the co-author of *Loved by Choice: True Stories that Celebrate Adoption*, and her articles have appeared in *Focus on Your Child*, *Clubhouse*, and *Breakaway*. Susan and Marc, her husband of 25 years, live in Colorado with their youngest daughter. 06/03

Very well written for a Christian family. I was impressed with how she handled the Birds and the Bees, I also like how she even addressed the possibility of if one was abused. No child will feel dirty after reading this well written book.

have your pre-teen read and then have a discussion with them using the book to facilitate.

Great simple biblically-based booklet. It is a very useful tool to use and generate discussion with your son about God's design for our bodies!

I purchased this for my two older children. I wanted to read over it before giving it to them to read. I was very pleased that it does not get graphic, there are no photos of reproductive organs, etc. I love that it explains how we as Christians (and everyone really) are supposed to wait for that one special person (our spouse) to have relations with AFTER we are married. It explains to young men and ladies about the changes that are happening to their bodies. If you are looking for detailed descriptions you may want to look somewhere else. If you want to give them a good idea of how things work and some encouragement to stay pure then this is it. I was a bit disappointed that the book is so small (maybe 5 x 6 inches). Overall I was pleased with the godly way of presenting pre-teens/young teens (I'd say 9-12 year olds) with the simple facts of life.

As the third book in the Miracle of Creation series, "What is God's Design for My Body?" is a wonderful way to gently tell children about human reproduction. This book uses kid-friendly examples to communicate the truth about sex and its intended purpose. Susan Horner accomplishes exactly what she sets out to do; she has written a nonembarrassing, discreet series that will act as a foundation for parents to talk with their children about sex using examples from the natural world and from the experiences of young men and women who have saved themselves for their spouses.

I have been so impressed with all three books in the Miracle of Creation Series. They were excellent and progressive tools in teaching my children about life. The quality of the books--awesome. The information was just what I needed when I needed it. I applaud Susan for her carefully selected words, the way she values life, and the tedious consideration paid to such a delicate topic. I have shared all three books with friends over and over again. I will buy them for my grandchildren.

I bought this book and sat down with my eleven year old daughter to have "the talk". This book REALLY helped...not that I was dreading "the talk" or even worried about it. But this book gives such a wonderful foundation for 1) beginning "the talk", 2) provoking questions and answers between you and your pre-teen and 3) reiterating waiting. It truly is a springboard for more discussion and opening communication between you and your child. It covers both male and female anatomy (leaving room for discussion). The book covers the basics very well and leaves plenty of

gaps for you as a parent to fill in for your child. Some parents may find this useful. Some may want to go further and some may simply leave it where the book does. Either way...this book is a must have for any parent that wants to discuss sex with their child on Faith based terms.

One of my friends let me borrow all three of these books in this series when my oldest daughter was ready to learn about this delicate subject. Ms. Horner has done a beautiful job with these books! The way she gently, and with carefully chosen words, introduces children to the marvels of the miracle of creation is fantastic! I would love to purchase all three for use with my other children as well. I also love how it all is presented in the light of Scripture and a biblical worldview.
