Diana: Her True Story In Her Own Words

Synopsis

The sensational biography of Princess Diana, written with her cooperation and now featuring exclusive new material to commemorate the 20th anniversary of her death. When *Diana: Her True Story* was first published in 1992, it forever changed the way the public viewed the British monarchy. Greeted initially with disbelief and ridicule, the #1 New York Times bestselling biography has become a unique literary classic, not just because of its explosive contents but also because of Diana's intimate involvement in the publication. Never before had a senior royal spoken in such a raw, unfiltered way about her unhappy marriage, her relationship with the Queen, her extraordinary life inside the House of Windsor, her hopes, her fears, and her dreams. Now, twenty-five years on, biographer Andrew Morton has revisited the secret tapes he and the late princess made to reveal startling new insights into her life and mind. In this fully revised edition of his groundbreaking biography, Morton considers Diana's legacy and her relevance to the modern royal family. An icon in life and a legend in death, Diana continues to fascinate. *Diana: Her True Story in Her Own Words* is the closest we will ever come to her autobiography.

Customer Reviews

**This review is for the 25th anniversary edition released June 27, 2017. Please note imported 66

reviews from previous editions. As of today, 12 reviews are of this edition.** I am still reading the book but felt a few notes were worth posting a review. First, not sure if a previous reviewer just got a bad book but my book doesn't seem to have been hastily made and is of good quality. The spine, cover, pages, and paper used (even the paper used on the color pages) are all crisp with no ink smudging, no glue residue, and no stuck/incorrectly cut pages. As for the book itself, the forward is pretty lengthy with some intimacy yet very prominent formality. Not my favorite writing style but I'm glad it's just in the forward. Before purchasing this edition, I tried to find a comparison of all previous editions to see what was specifically added but never could find solid info. This edition is broken into three parts: edited transcripts of Diana's interviews that are in the original publication, a biography, and all aftermath to date since the original 1992 publication. In all, there are 13 chapters, the last being titled "The People's Princess." Hopefully this will help someone else considering this as a first read (like myself) or an updated edition. I am finishing up the first part of the book and will edit my review once I complete it entirely. So far, worth the money spent.

Loved reading about the wonderful Queen of Hearts. I can't believe it's been 20 years since that bright light which was Princess Diana's life was so abruptly ended. I'm so glad to read that her beautiful children are carrying her legacy forward by being the wonderful men they have become and honoring their mother's charities. Prince Charles and Mr. Ed's mother (Camilla) are disgusting! Those two deserve each other, bleh!

Still Reading It, Such Sadness in Her Words. She was Like a Little Girl Thrown into a Big World, with No Training Wheels.

I haven't finished listening but so far the book is fabulous, soulful and insightful.

Interesting version to help understand Diana, his life as a princess and the real cause of her dead.

have not finished the book enjoyed what I have read

Great read! What an amazing and sad woman.

Diana: Her True Story - In Her Own Words is a heartbreaking insight into the life and mind of one of the most beloved people the world has ever seen. Delving deep into some of Diana's most

life-changing moments- both good and bad- is almost breathtaking. Reading the words on the page as she actually said them- completely breathtaking. I had to stop myself several times from becoming emotional while reading this book, as it reads quite differently than anything else I've come across. To hear what she felt, not from another's perspective, not from a third-party writing about her, but to actually read the words Diana once said is chilling. To read what she thought and why she did things, in a totally undiluted manner feels almost intrusive. Andrew Morton couldn't have written this book better if he tried, it flows together seamlessly. I'm so glad I decided to read this, I can't recommend it enough.
