Great book for anyone that enjoys Enya's great gift of music. Well arranged and isn't overly challenging for those that want to play. Recommend it for all.

This a great book for intermediate piano players. Enya's music translates to piano very well. Intermediate players will probably be able to play several of the songs right off the bat, but there is enough challenge to keep it interesting. Great book!

Beauty is in the eye of the beholder and music is in the individual ear. Can't get enough Enya.

There are songs which the piano arrangement was not as well done as others, but still worthy to give it a try.

Signature sound, always the texture as a target. Learn it and let the sound carry you where it

lives.

Collection ordered because it was the only way to purchase the the music/lyrics for "Paint the Sky With Stars. Will be utilized as a choral anthem at Church. Other songs in the collection are a bonus and will give hours of enjoyment at the Piano.

Ingenuamente creí- que al comprar este libro podré- a reproducir algunas canciones de Enya, porque pensé que eran muy sencillas. Gran error! Se necesita ser un experto en los teclados (o la guitarra) y algunas partes no me explico cómo pudo Enya tocar, pareciera que tuviera una mano extra. El libro está muy bien, tiene las partituras muy exactas y con bastante práctica y paciencia estoy seguro que es posible sacar aunque sea unas tres melodías. Suerte!

Although Enya's music is superb, the transcriptions in this book leave something to be desired. Part of the trouble is of course due to the difficulty of arranging music originally for multiple instruments and voices for solo piano, but on other instances it seems to be more thoughtlessness on the parts of those who transcribed the music. For example:-Several of the pieces, such that "Anywhere is" and "The Memory of Trees" are very repetitive. In the original pieces, the harmonies and background change over the course of the song. In these arrangements, each verse is notated exactly the same.-In "The Celts", a D.S. al. Coda is given without any indication as to what point in the music the player is supposed to skip to the Coda-In "Storms in Africa", there are sections where the pianist is asked to play three notes simultaneously, each of which is at least an octave and a fifth apart from the others.
