## Synopsis

(BH Piano). The definitive edition (1987) of the piano teaching classic. Includes an introduction by the composer's son Peter Bartok. (English/French/German/Hungarian text). In 1945 Bela Bartok described Mikrokosmos as a cycle of 153 pieces for piano written for "didactic" purposes, seeing them as a series of pieces in many different styles, representing a small world, or as the "world of the little ones, the children". Stylistically Mikrokosmos reflects the influence of folk music on Bartok's life and the rhythms and harmonies employed create music that is as modern today as when the cycle was written. The 153 pieces making up Mikrokosmos are divided into six volumes arranged according to technical and musical difficulty. Major teaching points highlighted in Mikrokosmos 2: Staccato, legato, accompaniment in broken triads, accents

For a starting pianist, a student in a Music School that has to study piano as well as the primary instrument, Bartok is the beginning and the end. Look no further. Everyone promises a magic bullet. There is none other than practice - this series takes you from nothing to being competent to pass any exam they throw at you.

Purchased for son in college. Cheaper than bookstore in school.

I wore out my first book and this was purchased to replace the one I had for many years. Like

learning to read text all over again.

This book was purchased for my wife who is learning how to play the piano. She has used this book from the beginning. It is great for beginners and advanced students.

Yep, Bela Bartok is a boss.

It's Bartok!

This is an incredible piano lessons book. Barton was a genius.

I bought this book for my piano lessons, and it taught me many valuable techniques that budding pianists use. A great copy
