L65VN - Basic Music Theory And History For Strings - Workbook 1 - Violin

Synopsis

This visually captivating workbook is a part of the String Basics curriculum, however, it is designed and recommended to be used alongside any first year string method book. It is a perfectly designed workbook FOR beginning string players and it's TMs divided into 2 sections: Music Theory - concepts introduced are organized to match with what most students learn in a 1st year method book: note/rest names, note/rest values, steps & skips, D, G, C Major scales, half & whole steps, ear training exercises. Exercises collaborate with string instrument fingerboard diagrams to provide a strong connection of theory to their playing experiences. Music History - history & development of string instruments and orchestras, biographies of 10 orchestral composers from the 1500s to the 2000s. Students will also read about music related jobs throughout the centuries. Each historical period includes "The Century Times," a 1-page newspaper highlighting bringing together elements of music-related history with important non-music events, discoveries, and more. The Teacher's TMs Edition serves as an answer key and contains additional assessments, and materials for ear training exercises. Online ear training tools are available. The Theory/History workbooks are designed for students to write in; they contain Practice theory assignments and include thought-provoking questions in the history portion. Available for: Violin L65VN Viola L65VA Cello L65CO String Bass L65SB Teacher's TMs Edition L65F

Customer Reviews

Looks good but still wondering about ear training, something somewhere said "online" but I guess we need to read the fine print now that we have the workbook

Just what my kids needed for school.

Perfect exactly what the teacher asked for.

Great book. Exactly what the teacher requested.

Just what we needed
