Customer Reviews

No doubt- Far superior to the Brighter Child brand. The graphics and coloring are great. The cards are very well made and you won't be disappointed with your purchase. The cost is nearly identical to the BC cards but so much better.

I will be using these for an adult ESL beginner that I will be tutoring. I should not have to be utilizing them for very long, as I anticipate rapid progress.

nothing spectacular...colors a little dull...some nice pictures...keeps child's interest momentarily...wouldn't say its disappointing...but merely adequate

I got these for my 2 1/2 year old and he loves them! The letters are bright and easy to read and the pictures are fun!

I like these cards. I'm using them with my son who is not quite 2 1/2 so we only look at a few at a time. One corner is rounded which is genius for putting the stack back together facing the correct way. I think we'll get a lot of use out of these. Each letter has 2 cards we can play matching games down the road.

I bought this to play games with my 2 year old, who is not yet talking. We take turns "playing cards" by choosing a card, then placing it on the discard pile. We work on labeling, letters, and letter sounds. I also have a four year old, who likes to play too. We play different games with these same cards! The pictures are great and the cards are made of quality material. The cards are big too, which makes them good for little hands to hold!

My little daughter like it ,

Grandson comes over and asks to go through Flash cards. He is getting better after only a few sessions Would recommend
