Jump, Frog, Jump!

Synopsis

"This is the turtle that slid into the pond and ate the snake that dropped from a branch and swallowed the fish that swam after the frog -- JUMP, FROG, JUMP!" This infectious cumulative tale will soon have the young frogs you know jumping and chanting with joy.

Grade Level: Preschool - 3

Customer Reviews

PreSchool-Grade 2-A frog tries to catch a fly, but finds himself on the other end of the food chain in this simple cumulative tale by Robert Kalan (Greenwillow, 1995). As each new danger appears, the frog is left with one option: jump, frog, jump! The frog's final escape, however, requires the help of a boy. Young children will enjoy the suspense as the frog struggles to survive, and will join in with the male narrator in the repetitive text. A few simple sound effects are used, as well as occasional light background music. Sound quality is excellent. Page turn signals are offered on one side of the tape. This is a book that pre-schoolers, especially, will embrace for its simple plot and step-by-step action. Teresa Bateman, Brigadoon Elementary School, Federal Way, WA Copyright 2001 Reed Business Information, Inc. --This text refers to an out of print or unavailable edition of this title.

Robert Kalan has also written the charming children's books *Rain* and *Blue Sea*, both illustrated by Donald Crewes. Kalan holds a master's degree in education and has taught reading to both gifted

and remedial students from kindergarten through the fourth grade. Byron Barton is the creator of many picture books for young children, including My Car, Building a House, and Little Red Hen.

Classic book that's very cute! My husband loved this book when he was young, so we purchased it for our 2 young children and they love it just as much as daddy!! They love saying the "jump frog jump" part in the book. This book is fun and very entertaining!

Perfect for toddlers language development--point to pictures, find the frog, or read the text for older children.

Great book!!

The patterned text and predictable pictures (for the next animal encounter) are excellent for young listeners and beginning readers. The color/black and white pages also have a predictable pattern. After teaching kindergarten for over 31 years, I've never found a group of children that didn't quickly chime in, "Jump, Frog, Jump." This is a favorite book to share. It is also fun to dramatize.

My 20 month old likes to JUMP along with the story!

Great book for a small child. Very cute. Bought as a present for a child. He loved it. Age appropriate. Good buy.

The book was in good shape as promised. I use this in school to work on sequencing with Kindergarten students. There is a worksheet online that goes along with the story book. The kids seem to really like this activity!

Our son loves this book and his speech therapist uses this as a reading material to keep the kids engaged.
