I love this book and used the paperback copy (scholastic edition) so much with my weekly gymnastic classes that I wore out the spine. This hardcover edition is beautiful and sturdy. ABC's of Yoga teaches multiple yoga poses ( over 40 poses or more!)for each letter and has a charming poem for each pose that describes the body position and movement. The children love to look at the pictures and hear the poems. The best part is that my students will come up to me later in the week( after gymnastics day) and show me the poses that they learned that week! I highly recommend this book!

This is a great book-kids really enjoy trying all the different yoga poses

My Grandaughter is 3 1/2 and tries to do the positions with her ABC's.

I love this book. It has "yoga" poses for every letter of the alphabet and sometimes two for a letter.

My four year old great-granddaughter and I went through the book a couple of times when I flew out to visit her. She made sure I didn't skip any poses. Most of the poses are associated with animals, so they're very kid friendly. A great book for fun and exercise.

My 3 and a half year old loves to sit down and do a few poses every day. She screams in excitement and runs to the carpet in the living room when I say, "do you want to do some ABC yoga?" Not only is the book reinforcing the alphabet and vocabulary, it is sharpening her listening skills and coordination. The book also encourages a child to use his/her imagination. The little yoga poems and the artwork are tastefully done. I can't say enough great things about this book. Thank you for writing this wonderful book.

We use this in our classroom of preschoolers with special needs and it has been tons of fun. The kids are much more flexible and braver with balancing than we are! The illustrations are beautiful and the poems are sweet while being instructional. My only small qualm with this book was that certain letters are only given one position while other letters may have four. We were hoping to have a session dedicated to a letter of the alphabet, but in those cases merely review previous positions.

This book is wonderful! My 4 year old and I read all the time together, but as of now, he rarely takes a book out by himself. Except for this one. I'll catch him taking this book off the shelf by himself, opening it up and doing stretches/poses for about 20 minutes at a time. He's even started to create his own poses. Thank you!

we got a copy of this for my son when he was 1 and he still loves it at 2 1/2. We do a few poses every night before he goes to bed and he started showing his teachers and friends at school so we bought his classroom a copy as well. Nice that it incorporates yoga, the alphabet, and a little story with each pose.
