Intelligent Patient Guide To Prostate Cancer

Synopsis

All you need to know to take an active part in your treatment. Written by physicians for patients and their families affected by prostate cancer, this book covers all aspects of the disease, from diagnosis to treatment and beyond in an easy-to-understand and informative way. You will be amazed by how much more 'incontrol' you will feel with this book at your side. Topics include: The symptoms you should watch for, all about the prostate gland, reducing the risk of prostate cancer, the PSA test, what happens when you have surgery or radiation? What about urinary control and sexual function? The side effects of all treatments and a full glossary of important medical terms.

Customer Reviews

Dr. S. Larry Goldenberg received his MD from the University of Toronto Medical School and completed his surgical training in urology at the University of British Columbia. He is a Professor of Urology at the University of British Columbia, co-director of the Vancouver Prostate Centre, Chairman of the UBC Department of Urologic Sciences, consultant at the British Columbia Cancer Agency, Director of the Men's Health Initiative of BC, and staff urologist at the Vancouver General Hospital. He is a fellow of the Royal College of Surgeons of Canada, the Canadian Academy of Health Sciences, and the American College of Surgeons. Dr. Tom Pickles is a Professor in the Department of Radiotherapy and Developmental Radiotherapeutics at the University of British Columbia and a staff radiation oncologist at the Vancouver Clinic of the BC Cancer Agency. He has been specializing in the management of prostate cancer for over 20 years. He has taken a particular interest in doctor-patient communication, patient decision-making, screening, and active

surveillance. He is credentialed in brachytherapy as well as the use of external radiation for prostate cancer treatment. Dr. Kim N. Chi is a medical oncologist at the Vancouver Clinic of the BC Cancer Agency and the Vancouver Prostate Centre. He is an Associate Professor of Medicine at the University of British Columbia. During the past 10 years he has specialized in the treatment of prostate cancer. His research is focused on developing new therapies for advanced prostate cancer. He is currently the medical director for the Clinical Trials Unit at the BC Cancer Agency and chairs the provincial Genitourinary Cancer Tumour Group, which sets the treatment guidelines for the province of British Columbia. --This text refers to an out of print or unavailable edition of this title.
