Customer Reviews

This book is a complete dreams guide. If you are looking for a deeper understanding of what

dreams are, how they are formed and how you can benefit from them, then this book is for you. Your dreams are the mirror of your thinking, desires and ideas. Moreover, they give us a deeper understanding of ourselves. This guide contains proven steps and strategies on how to know all about your dreams to achieve greater success, and how you can also make your dreams come true. It helps you gain better comprehension of your dreams, so you can understand the messages they are giving you and make the right decisions.

This book has really opened my eyes to my dreams about the meaning of them. I understand a lot more of what is going on in my life and in my mind. It guides you and gives you easy steps to controlling and understanding your dreams. This book is very easy to read and very easy to follow. I have learned that understanding your dreams can bring a new meaning to your life. Keeping a dream journal has been the most important thing I have learned in this book. It has actually helped me start remembering more of my dreams also.

I enjoyed reading this book a lot because it is written in a simple to understand way. Although the topic is not an easy one, the book manages to distinguish between the scientific and the metaphysical sides of the dream coin. The book starts off by introducing why we actually do sleep, why and how we dream, relating it with the different aspects to why the subconscious is a gateway to the conscious that often relates to reality. I've always been obsessed with interpreting my dreams and I think I've bought every book out there. This book covers every aspect of dreaming from understanding dreams to interpreting them in a very concise, straight forward way. I highly recommend!

The book: *~ Dreams: Find Out All About Your Dreams For Greater Happiness And Success (Dreaming, Dreams, Interpreting Dreams, Dream Meanings)~*, by Alicia North, deals with a very popular subject ~ Dreams. Everyone is interested about the topic of dreams, their meaning, how to interpret them etc. Many feel that dreams are reflections of our thoughts, ideas and innermost desires that lie suppressed in our sub-consciousness. The author goes little further here by providing steps and strategies on how to know all about dreams to achieve greater success in life. For those who want to understand this human phenomenon, and probe deeper into understanding why people dream or how we can interpret the night's dreams (or nightmares), this is a good book to read. For me it is a complete dream guide. I recommend it to everyone interested in the subject.

I am fascinated with dreams and know they are important to our waking life. This book gives an overview of dreams and possible interpretations. I wanted more although and depending upon viewpoint could be acquired by other sources such as the Bible in which God reveals, guides and endows humans through dreams and visions. I really love this book.

This book enlightens us about knowing the importance of our dreams. It do make sense that when we interpret our dreams illiterally, we will get the very sense of it. Our dreams may sometimes be good or bad however effects would matter on the way we understand it. Knowing and understanding our dreams really makes us happy.

Good Stuff! I've always had very vivid dreams but had never really paid much attention to what they mean. This book caught my eye so I decided to give it a go. It's a very well written book and a great page-turner! For me, the most valuable bit was around why we should analyse our dreams. Since reading this book I've been analysing my dreams to help with problem solving - especially work problem! I also found the explanation of 'falling' and 'chasing' dreams very interesting. A good read and worth the download.

I always want to find out and interpret my dreams & why we dream but never thought that it is possible. After I read the book, I recalled some of my dreams and begin to understand why we dream & their meanings. This book really help me to interpret & understand their meaning in a simple way. It also distinguish between the scientific and the metaphysical sides of the dream coin. I am happy with the information provided in this book & I highly recommend it.
