This book is for any individual who wants to take flight to reach their dreams. This book is a quick read that provides great insight into how one can be successful. It incorporates meaningful quotes that any reader can apply to their daily routine. Douglas "Trey" Parker and A.D. Williams made this book relatable to anyone who desires to develop their career goals and be fruitful. After reading this book you will understand the true meaning of "Walking on Air" as these two authors fulfill the purpose of inspiring their readers to take charge of their lives and become prosperous. I recommend this to anyone who is looking to make that positive change in their lives.

As a young adult who made the "foolish" decision of moving out of state away from all of my close friends and family for graduate school, I can attest to how helpful this book has been in lieu of my recent transition. The authors did an amazing job of empowering the readers that it's absolutely

okay to live out your wildest dreams.. even when others and sometimes yourself don't believe that's it possible or worth it. Walking On Air is a quick but powerful read that can be enjoyed by those young and or old!! I'll be sure to continue spreading the word on what it means to be

This book is exactly the kind of motivation that should be floating around our communities. Dream chasers should not be fearful of making their dreams a reality. It's our destiny! This book is a must read for all young professionals, no matter what field. Actually, it needs to be in schools across the world to get our generation and those after us thinking out of the box at an early age. 5 stars is the least that I could give this book. Excellent book! Simplistic read while providing massive perspective. A good place to start for anyone who is "not THAT into reading" or those who don't like long dense discussions on a topic. I was impressed, to say the least, and I look forward to future projects from these young men. Kudos!
