# Celebrated Method For The Clarinet

## Synopsis

This authoritative and completely revised and enlarged edition of the Celebrated Method for Clarinet has been edited by Stanley Drucker, former New York Philharmonic Principal Clarinet, and his wife and colleague Naomi Drucker, Professor of Clarinet at Hofstra University. The new layout allows for much easier reading during practice and performance while preserving the pedagogical nature of the method. Purists and modernists alike will welcome this modernized edition. The new edition include the addition of Rose Etude excerpts, expansion of Kroepsch Studies, and complete Grand Duets for study and performance.

## Book Information

## Customer Reviews

This was recommended to me by a respected clinician in my area, so I took his advice and received so much more than I expected. I have been using this solely to work on fundamentals and have been exposed to exercises I had never seen before and this book has since become my favourite clarinet-specific book.

This book has absolutely everything in it you need to know to be the best player possible. I should have bought this a long time ago.

The book has plenty to keep the clarinet player learning. In addition to exercises, I really enjoy playing many of the duets with my daughter. I've also used the exercises and songs to practice with

my bass clarinet. I highly recommend the Klose book for the clarinetist at any skill levels.

The Methods book for the clarinet was what I was looking for. The used copy was in excellent condition and what a great price! Thank You . I am never disappointed.

Amazing product, but my book cam damaged wit a corner dented in

This is a complete exercise workbook for a budding professional.Be ready to put in lots of time and effort to excel with the clarinet,especially for classical music.

This book, as well as Carl Baerman's three-part method, is pure gold. I feel it should be integrated into a beginner-intermediate student's practice sessions after the student has gotten a fair grasp of the basics and knows the notes presented in the exercises.

Great product, fast shipping.
