Customer Reviews

There are lots of grandparent books out there, but for me, some of them can be sort of needy or pushy. This book is appealing because it is playful and pretty insightful. It turns a little kid's concerns about being left with a babysitter, (even a grandparent), into little jokes about grandparents. This switcheroo is clever and gives the book a bit of zip. The jokes are mild and predictable but still affectionate and cheerful. The book's tone is consistently upbeat and there aren't any jokes or funny bits that make you pause and wonder why anyone ever thought "that" was funny. Both because this is about as appealing as store-bought whimsy can get and because grandfathers are a hard bunch to buy anything for, this book worked for me. And I'll guarantee that if you sit down to read this book with one or more of your grandchildren, you'll end up doing some of the things that are suggested as grandpa pleasers.

I purchased this book for my 3 year old daughter to help prepare her for her first night away from me and her Daddy. I figured since she was staying with her grandma and grandpa this book along with How to Babysit a Grandma would be perfect. I was right! She absolutely loves both this book and How to Babysit a Grandma. She doesn't care that the character in the book is a boy, (we also don't dwell on gender specific toys though). She has already started talking about what her and Papa are going to do when she babysits him later this month. It's a really cute story and I'm really happy I purchased this book.

I thought this book was very funny. My grandsons, four and six, did not -- at least not very much. Maybe it would have been funnier to them one or two years ago.

Such a cute book! I originally got to read it while babysitting for a family that owned it, and now I buy it regularly to gift to expecting mamas at their baby showers. It always gets an "awwwww" when the title is read aloud during gift opening. Write a message inside to future baby and buy something from their registry and it's the perfect gift!

My grandson (age 6) went absolutely nuts over this book. We had to read it at least three times a

day (sometimes I read, sometimes he read to me) and we got to the point of acting out parts of it.

Love these books! I bought this for our grandson who just turned 2 years old. Love the illustrations and the humorous instructions to keep Papa happy while the parents have an evening out.

This book had my daughter in stitches trying to read it with her Grandpa. You can tell that this author was very close with her Grandpa and they had a blast with each other.

Love this book and the companion book, How to Babysit a Grandma. Bought both for the grandparents before an extended vacation when they watched the kids, and they loved them. Great to read together - illustrations are fun and the stories are great about letting grandpa have his nap time, and keeping him entertained. Super cute stories.
