And The Wolves Howled , Fragments Of Two Lifetimes

Synopsis

For as long as she can remember, Barbro Karl  n has recalled a previous existence as Anne Frank, author of the famous diary. Now, prompted by a series of events that culminated in a struggle for survival, she tells her amazing story. She takes us from her early fame as a best-selling child literary sensation in her native Sweden to her years as a policewoman and successful horse trainer. But this is no ordinary life history. As the victim of discrimination, personal vendettas, media assassination, libel, and attempted murder, Karl  n is eventually shown the karmic background to these events. Glimpsing fragments of her former life, she begins to understand how forces of destiny reach out from the past into the present, and she is finally free to be herself. This the story of a supernatural struggle for truth in the face of discrimination and lies. Eight pages of illustrations.

An extraordinary book ... deserves to be taken seriously -- International Herald Tribune

'A very thought provoking read! Whether or not she was really Anne Frank in another life, I do not doubt Karlen's sincerity.' Rabbi Yonassan Gershom, author of Beyond the Ashes and From Ashes to Healing. For as long as she can remember, Barbro Karlen has harboured terrible memories of a previous existence on earth as the Jewish girl Anne Frank, author of the famous Diary. Until recently, she had kept this knowledge private. Now, prompted by a series of events which culminated in a struggle for her survival, she is ready to tell her amazing story. And the Wolves

Howled is the autobiography of Barbro Karlen, from her early fame as a bestselling child literary sensation in her native Sweden, to her years as a policewoman and a successful dressage rider. But this is no ordinary life history. As the victim of discrimination, personal vendettas, media assassination, libel and attempted murder, Karlen is forced to fight for her very being. In the dramatic conclusion to her living nightmare, she is shown the karmic background to these events. She glimpses fragments of her former life, and begins to understand how forces of destiny reach over from the past into the present. With this knowledge she is finally free to be herself... And the Wolves Howled is the story of one woman's superhuman struggle for truth in the face of discrimination and lies.

As a past life therapist, specialized in past life dreams, I find Barbro Karlen's story absolutely convincing. Although her heartbreaking contemporary tale of persecution in a supposedly peaceful country becomes repetitive and almost nauseous after a while it is nevertheless in keeping with what I know about the carry-over of repetition compulsion from one lifetime to another. The return of nightmarish past life memories, triggered by similar tribulations in the present, is equally accurate and authentic. In her heroic struggle with and final victory over the forces of the past the author sets an example for how to deal with and resolve negative karma. Although this book is no work of art, it is an invaluable resource for all of us who struggle and work with past life trauma. And yes, based on the evidence found in this book, I am convinced that Barbro Karlen was in her last life Anne Frank.

The author Barbro Karlen, confirms my own convictions that life does not end with this body made up of Matter. I have had my own out of the body experiences given by the "Higher Power", resulting in me becoming my soul, and am certain, that life does not end with this incarnate body. I like the author, am convinced that we as a soul, inhabit different bodies after each lifetime, to work out our "Karmas". According to some religions, namely Hinduism and Buddhism the soul has to attain a "pure state" of being, before it can become eternal. The author Barbro Karlen's memories of a previous life as Anne Frank, and her present life's trials and difficulties caused by other humans in her work as a horse trainer and dresser, supports "re-incarnation" of the human soul. This real life story (autobiography) of Barbro Karlen, is a very revealing and illuminating book; a book one must read.

This book is very interesting for a number of reasons. I did find it was hard to keep reading a

number of times just because it is a distressing set of circumstances for the author herself but also for the past life connections to Anne Frank's life and death. I believe that Barbra Karlen had lived as Miss Frank in her former life as a result of reading this book.

This is a moving account of a woman's story of a previous life during the Holocaust and the direct impact of that trauma in her current life. It's a hard read considering the inhumane conditions of Barbro Karlen's previous life; yet, a rewarding read because of her ability to put all of the pieces together to learn how to end a cycle of persecution.

Amazing must read!!!

I really enjoyed this book!

This tale of her nightmares and subsequently understood continuum of life and relations will stay with you. This will inspire the reader to examine her own life and the people in it.

I found this book incredibly inspiring - whether you believe that the author actually lived a previous life as Anne Frank or not! The book focuses more on her life as a police woman and single mom facing one outrageous challenge and mistreatment after another. I'm personally inspired by how she kept going, never stopped doing the right thing in the face of every persecution possible. I'm also impressed by her bravery in choosing to share this story, even if it means being ridiculed for it. I know her professionally and have heard first hand how people laugh at her behind her back because of it. I also know what a genuine, caring and warm-hearted person she is - and I can also attest to that her perseverance in keep seeking to do good has given her a life today that is blessed with the same goodness that she always has put out there.
