The pages are colored which makes it hard to read your noted. Otherwise its great.

Ok, but found same thing cheaper. Returned.

Beautiful book.

I like the design etc. and I can use it for what I intended, however it was a little smaller than I expected so I'll have to write smaller :)

The box are too small.

Convenient 2 year calendar

This 2 year pocket planner is nice, a great size, as advertised, and there is indeed a good amount of space to write notes on the dates especially considering it is a pocket calendar. I knocked one star off because the cover is of very high quality paper, but it lacks the traditional plastic cover over it which many pocket calendars have. The paper quality is quite good though, so hopefully it lasts 2 years without one. I do want to add, the description does NOT say there is a plastic covering. It was my own incorrect assumption there would be one. I still am happy with the pocket calendar before use, with that exception being noted.

This calendar appears to be well made. I like how the calendar itself is laid out, since it goes long wise you have more room to write on each day than you would if it went across. The downside to this is that there is less space for notes. The months are colored differently so it's easy to quickly tell which month you are on, although if you write in pencil it is hard to read so you will need to use pen, which if you have frequent plan changes can be a problem. I was surprised that there is no plastic cover on this calendar. Not a big deal, as I can take it from an old calendar and use, but it was a surprise just the same. The cover is heavy cardstock with what appears to be a thin plastic coating, but I don't think it would hold up well if just tossed in the purse like I tend to use mine. All in all, a good purchase sight unseen but I would have preferred the plastic cover that is normal in this type of calendar.
