A.I. Destroyer: The A.I. Series, Book 1

Synopsis

It came from deep space. It sent the signal. Now our computers are killing us, helping the enemy drive us into extinction. But some of us refuse to die. We fight back. We learn. Jon Hawkins revives from cryogenic sleep in a drifting SLN battleship. The crew is dead and the main computer has been destroyed. Jon is a soldier, the start of the resistance, the one man with the will to beat the alien death machines that have terminated 1000 races. This is our hour as we face the ultimate evil, the galactic destroyer of life.

Best Sellers Rank: #50 in Books > Audible Audiobooks > Science Fiction > Adventure #126 in Books > Science Fiction & Fantasy > Science Fiction > Space Opera #201 in Books > Literature & Fiction > Action & Adventure > Science Fiction

Customer Reviews

That is the second series of books that I read from Heppner, and it is as good as the first one. It tells the story of a group of space marines that fights an alien invasion. Pretty standard plot but Heppner knows how to keep his audience. I will go for the second volume in the series right now.

I read a lot of military sci-fi, from Red Storm Rising to Armor and Starship Troopers and A.I. Destroyer ranks among the laureates listed. Its hook pulls you in with a style not exhibited often, yet expertly crafted none the less. Its wit and brutality conveys the reality of a stellar humanity in the near future. The trial and tribulations of the main character offer a portal into war much like that offered in Armor and Starship Troopers. The tale as a whole was an exquisite delight, so much so that I've cleared a weekend to read the sequel!

This is an OK story, but... I only read this two months ago, and I don't remember it well. On my personal book list I gave it a 2+. The reviews for the next book convinced me to abandon the series. I need to revisit that, but I'm not hopeful for it.

Well.... started ok but sorted ended up like big John Wayne storming the high chaperal...bit saddened as I expect the story to grow. Became predictable...perhaps more perspectives would help

What do you do when you are the only one left? You lead what you can find. Jon and two others start to gather the living mercs and, after getting the sergeants on his side, attack.

I enjoyed this book, I hope the next one keeps my attention as much as this one did. I am going to read something else first, I always do that when I am reading a series. That way I don't get tired of the same story line.

I bought the first as a sample, and after finishing over the weekend ordered the next two. the characters are diverse and all play their roles superbly.

Good characters and a fun plot. I started in the middle and then book three and finally book one. It was a lot of fun. I'm looking forward to book 4
